## Description :

Prsentation de l'diteurThis is a practical book for all those who would like to learn a language. It includes techniques for learning, key information about the structure of language and how to learn it, motivational techniques, principles for accelerated learning, and skills used by memory athletes and linguists. Regardless of your language skills and past experience with learning foreign languages, I will show you the best

techniques for learning languages and improving your current knowledge of a foreign language. Whether you are a complete beginner or a competent speaker this book will reveal techniques that will enable you to master material better and enhance your skills. This book will teach you to go from beginner to fluent in six months, teaching you:

- Accelerated learning techniques to learn quickly, easily and enjoy the process
- Memory techniques used by memory athletes
- How to use flash cards, memory palaces and other mnemonics to remember anything
- Motivational techniques
- Concise explanations of grammar so you can understand any language book
- How to choose a language course
- How to find free language learning material
- How to use social media and the internet to make language learning easy and fun
- What you need to learn
- How to learn what you need to
- How to learn foreign languages by watching your favourite movies and reading your favourite books
- How to master pronunciation
- How to make friends and learn your new language from a boyfriend or girlfriend
- How to make the most of the immersion experience so you learn the language
- When to learn and how to learn grammar and spelling
- Advanced language techniques used by translators and interpreters to develop your skills further
- How to use classical conditioning techniques to improve learning and performance

Improve your language skills and you will improve your memory too! This book is the best way to start your study of foreign languages by teaching you how to learn them quickly and well, so you enjoy learning.

About the author: Peter D Campbell, B.A.(Hons), is a professional translator. He has worked as a translator since 2005 for Russia's largest translation companies on some of their biggest projects. His work has included a translation of an encyclopaedia, development plans for the Sochi Olympics, exhibition notes for the State Hermitage Museum, documents for the International Polar Year, St. Petersburg International Economic Forum, Gazprom and many other leading organizations. Peter speaks fluent Russian and reads Latin and French. He learnt first year university Latin in six weeks and learnt to read French studying an hour a day for two months. He has over five years experience teaching English at all levels including training translators. The techniques in this book bring together his experience learning and teaching languages and working as a professional linguist.
