Description :

Prsentation de l'diteurEntertaining and educational, Douwe Draaisma's Why Life Speeds Up As You Get Older raises almost as many questions as it answers. Draaisma applies a blend of scholarship, poetic sensibility and keen observation in exploring the nature of autobiographical memory, covering subjects such as dj-vu, near death experiences and the effect of severe trauma on memory recall, as well as human perceptions of time at different stages in life. A highly accessible and personal read, this book will not fail to
